

# MINI SKID STEER MANUAL ANGLE BROOM

Handle dirt, snow, and debris cleanup with the Star Mini Skid Steer Manual Angle Broom. Designed for compact machines and tight working areas, this broom delivers efficient sweeping performance with a 48" sweeping width, durable 26" bristles, and a heavy-duty 8" core. The 30° manual angle adjustment allows operators to direct material left or right for added versatility on sidewalks, driveways, and property maintenance applications.

- ➔ 30° manual angle adjustment left or right
- ➔ Built for sweeping dirt, snow, and debris efficiently
- ➔ Compatible with Dingo and Bobcat MT mounts

## FEATURES

- ➔ Flow range of 10–15 GPM for compact machine performance
- ➔ Available bristle options in all poly, all wire, or 50/50 mix
- ➔ 48" sweeping width with durable 26" bristles
