

TRACTOR LOADER BACKHOE HYDRAULIC BREAKER

Break through concrete, asphalt, rock, and other tough materials with a Star Hydraulic Breaker designed specifically for Tractor Loader Backhoes (TLBs). Ideal for demolition, utility installation, road repair, trenching, foundation work, and site preparation, this breaker adds powerful hydraulic breaking capability to the backhoe you already own.

- ➔ Designed for TLBs with a quick-coupler mounting system
- ➔ Ideal for demolition, concrete breaking, rock excavation, trenching, road repair, and utility installation
- ➔ Heavy-duty construction is engineered for demanding construction, utility, municipal, and rental fleet environments.

FEATURES

- ➔ Accumulator-free hybrid design combines gas and hydraulic power with fewer moving parts for dependable performance and reduced maintenance.
- ➔ Long-stroke piston and cushion chamber technology maximize impact while reducing recoil.
- ➔ Dual retainer pin design maintains proper tool alignment for even wear and longer tool life.

SPECIFICATIONS

SKUs	Impact Energy Class	Impact Frequency	Operating Pressure	
212-BH-JDCASE	825 ft-lb (1,118 Nm)	550–1,000 bpm	1,450–2,320 PSI (10–16 MPa)	
Working Weight — 1pc top mount	Working Weight — 2pc top mount	Working Weight — box bracket		
672 lbs (305 kg)	694 lbs (315 kg)	849 lbs (385 kg)		
Oil Flow	Chisel Diameter	Hose Size	Base Carrier Class	N2 Gas Charge Pressure
9.2–15.3 GPM (35–60 L/min)	3.0" (75 mm)	1/2"	3.8–6 metric tons	8 bar (116 psi)
